

Learning Agility: The #1 Survival Skill in the Age of Rapid Change

The World is Changing Faster Than We Can Learn

01.

44% of skills will be disrupted in the next 5 years (WEF 2025)

02.

Skills have a shelf-life of less than 5 years (LinkedIn Learning 2025)

03.

78% of organizations say continuous learning is critical

What is Learning Agility?

It's Learning, Unlearning, and Relearning

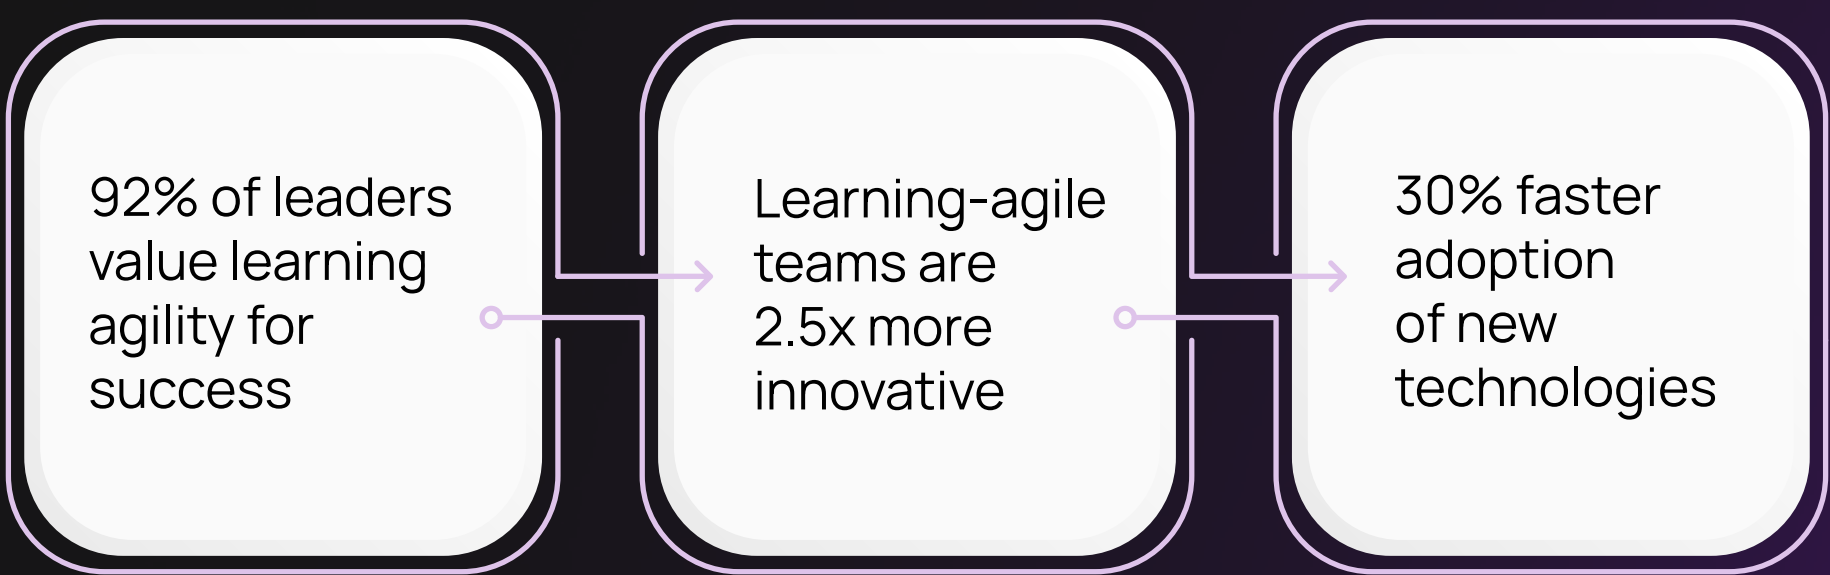

Tenneo LMS delivers on-demand learning, helping partners stay ahead of skill gaps.

Skill Agility vs Learning Agility

Same Game, Different Focus

Skill Agility	Learning Agility	Tenneo LMS
Rapidly build new skills.	Evolve how you learn	Offers curated skill modules & simulations for rapid adaptation
Tactical and role-specific	Strategic and future-ready	AI-powered recommendations match learners to emerging skills
Focused on upskilling/reskilling	Focused on adaptability	Interactive dashboards track skill growth and readiness
Output: Competence	Output: Growth mindset	Provides insight into learners' learning behaviors to guide development

Why should you care now?

Did you know - Enterprises using Tenneo LMS are quicker to implement solutions, adopt new tech, and stay market-ready.

How to Build Learning Agility

- 01

Stay Curious – Explore and question
- 03

Seek Feedback – Use peer & manager inputs
- 05

Embrace Change – On-demand content ensures readiness

- 02

Reflect – Learn from wins and failures
- 04

Experiment – Simulations in Tenneo LMS
