

The Enterprise LEARNING ECOSYSTEM

Three learning tools.
Zero shared intelligence.

Most enterprises stitch together an LMS, an LXP, and a skills platform — each one blind to what the others know. The result: learning that’s disconnected from actual skill growth.

Where The Stack Breaks Down

LMS Vs. LXP Vs. Skills Platform

LMS

Delivers courses & tracks compliance.

Static,
One-Size-Fits-All

LXP

Curates content around interests.

Discovery,
Not Outcomes

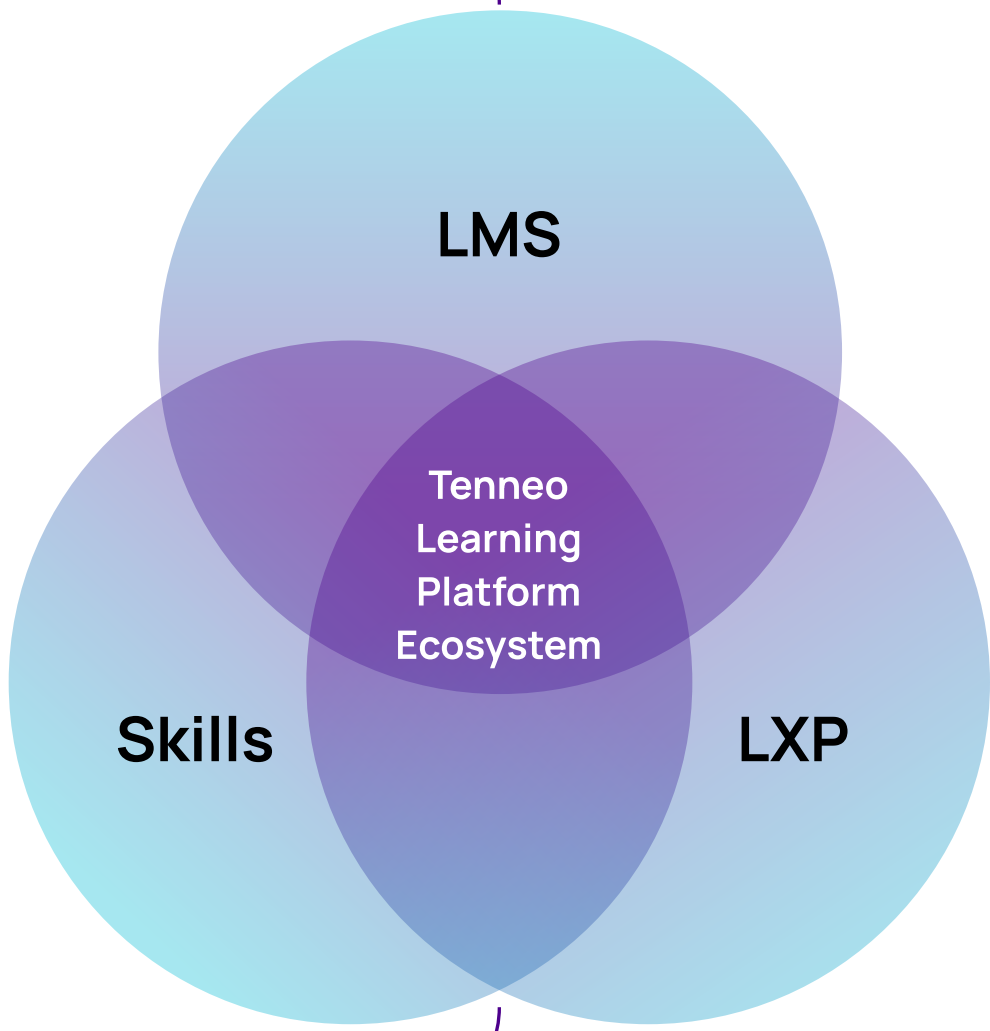

Skill Platform

Maps competencies & gaps

Sits Outside
Delivery

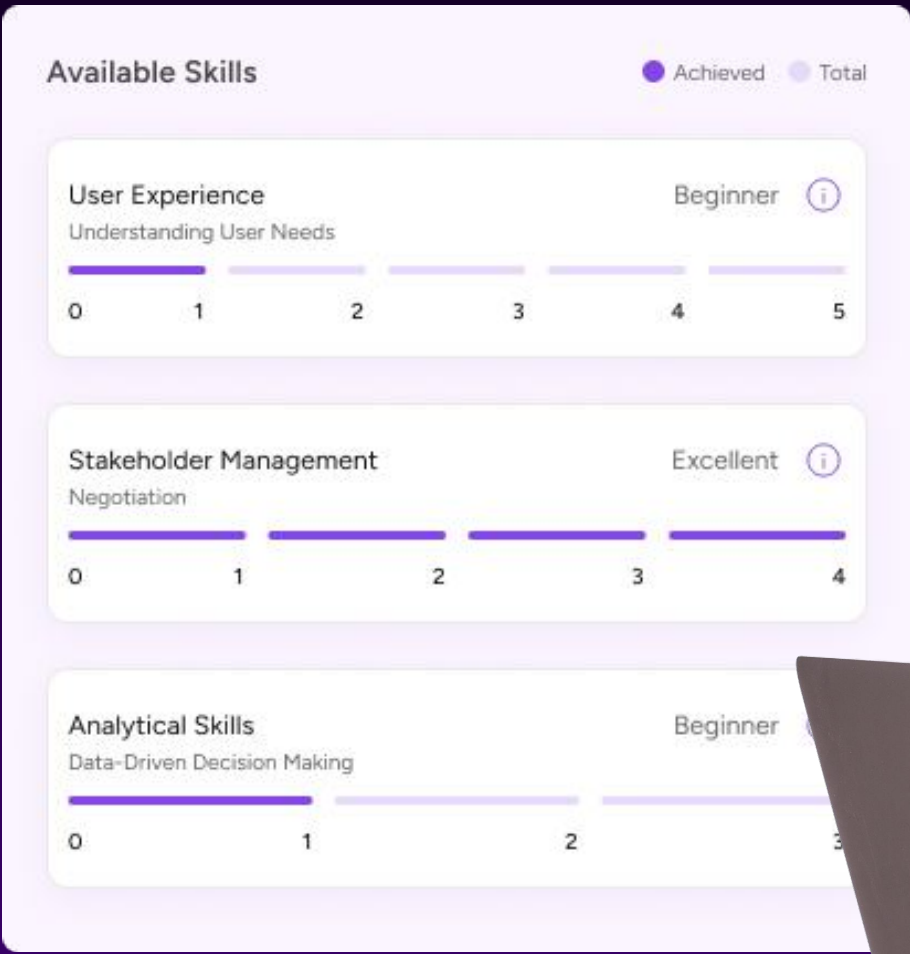

One AI Core, Not Three Silos

Tenneo unifies delivery, discovery, and skills intelligence into a single adaptive layer.

Stop stitching tools. Start compounding skill.

Tenneo is the AI-powered learning ecosystem that replaces the stack with one adaptive system.
